

Feature

- It is a paint with a pattern that looks like it was knocked on the metal surface with a hammer.
- It is made of aerosol type for easy use anywhere easily.
- It not only makes the surface of the film beautiful but also has excellent weather resistance and excellent color retention, and is mainly used for high-grade finishes.
- Special modified Alkyd Resin is the main component, and it has excellent adhesion, durability and hiding power.

Application Field

- Steel furniture, machinery, light metal products, safes, cabinets, etc.
- Painting finish for under-painted wood
- Various interior and decoration

Storage and Handling precautions

- The surface temperature should be at least 3°C above the dew point to prevent water condensation.
- Avoid work on rainy days, high humidity (85% or more), low temperature (5°C or less). (Cracking of coating film, poor adhesion may occur.)
- When repairing the surface of the old film, please check the conformity.
- Please note that if the paint is thick, the pattern may become faint and the three-dimensional effect may not occur.
- If applied to nonferrous metals, there may be differences in adhesive strength depending on the material and pattern. Please use after applying CK-666.

How to Use

- If rust has already occurred, remove foreign matter from the paint surface using an iron brush or an electric machine.
- Shake the container thoroughly until the bead of the container is free to move.
- Spray 20 to 30cm away from the surface. After the first coating, if necessary, apply the second coating after full curing.
- Spray in a place where it is not affected by wind.

How to Keep

- Please store at room temperature.
- After use, sprinkle the can upside down for 2~3 seconds until gas is discharged. After that, store it in a safe place. (Spray used for painting)
- If the can is not sprayed upside down, the solution coming through the valve tube during injection is hardened and can't be reused.

☞ **It is dangerous as a flammable product using high-pressure gas.
Therefore, you must observe the precautions.**

- Do not use near flames such as stoves, fans, etc.
- Do not use in the room where firearms are used.
- Do not store in a place where temperature exceeds 40°C.
- Ventilate the area immediately after use in an enclosed room.
- Empty containers should be disposed of by removing the gas.
- Do not store in an enclosed space.
- For further safety information, please refer to the Material Safety Data Sheet (MSDS).

☞ **Packing unit & Color**

- Packing: 420ml Aerosol Can, 20EA/Box can
- Color: Blue, Black, Green, Brown, Silver

☞ **Manufacturer Information**

- Manufacturer: HumanTech
